APSAC envisions a world where all maltreated children have access to the highest level of commitment and service.
Welcome to the 21st annual APSAC Colloquium!

Our vision is for a world where all maltreated or at-risk children and their families have access to the highest level of professional commitment and service. Our mission is achieved in a number of ways, most notably through expert training and educational activities, policy leadership and collaboration, and consultation that emphasizes theoretically sound, evidence-based principles.

Come join us in the celebration of this vision and commitment to supporting and training professionals who serve children and families affected by child maltreatment and violence. Through the hard work and dedication of our members, APSAC has grown into a multidisciplinary group of professionals, who also are our friends, family, colleagues and the leading experts on the prevention and intervention of child abuse in the United States.

We are looking forward to seeing you in Las Vegas June 25-28, 2013.

Viola Vaughan-Eden
APSC Board President

About the Colloquium

This year we offer 86 institutes and workshops which address all aspects of child maltreatment including prevention, assessment, intervention and treatment with victims, perpetrators and families affected by physical, sexual and psychological abuse and neglect. Cultural considerations will also be addressed.

The educational goal of APSAC’s Colloquium is to foster professional excellence in the field of child maltreatment by providing interdisciplinary professional education.

Upon completion of this activity, participants should be able to:

1) Identify physical abuse, sexual abuse and neglect in children
2) Treat abused and neglected children
3) Apply model examination techniques for assessment of abused/neglected children
4) Describe and utilize the most up-to-date information concerning working with abused and neglected children to improve patient care
5) Prepare and report quality testimony in court cases, both as experts and as witnesses

Seminars have been designed primarily for professionals in mental health, medicine and nursing, law, law enforcement, education, prevention, research, advocacy, child protection services, and allied fields.

1. State-of-the-Art in Treatments for Child Physical Abuse

The presentation is a summary of the clinical steps, research support, and cultural adaptations for the state-of-the-art in the mental health treatment for child physical abuse (Parent-Child Interaction Therapy—PCIT; Alternatives for Families: A Cognitive Behavioral Therapy - AF-CBT; Multisystemic Therapy for Child Abuse and Neglect-MST-CAN).  
Elissa Browne, PhD; Anthony Urquiza, PhD; David Kolko, PhD; Cindy Swenson, PhD

2. Institute on Forensic Interviewing

Part 1 - Children and Technology: Forensic interview and investigatory approaches

Interviewers are challenged to gather the data needed for investigating cases involving technology. Interviewers are also challenged to remove barriers to potential disclosures of abuse. This pre-conference will address both the interview issues and investigative needs through discussion of case examples and will create a plan for approaching these cases.  
Julie Kenniston, MSW; Lt. Dave Peifer  
*This session is sponsored by NCJTC*

Part 2 - Forensic Interview Peer Review

Research shows that interviewers maintain and improve skills through peer review. This pre-conference offers interviewers an opportunity to engage in this process. Participants are asked to bring a video or be prepared to conduct a mock interview. Peer review will be modeled and participants will offer feedback to one another. Participants should be active interviewers for child abuse cases. A portion of the discussion will highlight the differences between human trafficking cases and typical forensic interviews.  
Julie Kenniston, MSW; Patti Toth, JD

3. Advanced Training in the Medical Evaluation of Child Sexual Abuse

This is an advanced session in child sexual abuse assessment for medical providers. The topics that will be addressed will be a review of the updated Guidelines, the revised NCA standards, pertinent articles for court, peer review and photo documentation. The audience will participate in a peer review session with either images provided in advance by the attendees or cases prepared by the presenters.  
Lori D. Frasier MD; Suzanne P. Starling MD

4. Interdisciplinary Advocacy for Children’s Lawyers

This pre-conference seminar provides an overview of a number of interdisciplinary issues—medial signs of physical and sexual abuse, psychological implications of sexual abuse, forensic interviewing, brain development and brain-behavior connections, trauma and its impact on child functioning—confronted by children’s lawyers and provides a framework for developing a comprehensive advocacy strategy.

5. The Commercial Sexual Exploitation of Children: Training for healthcare and other child-serving professionals

This training will provide an overview of the commercial sexual exploitation of children in its various forms, from global and domestic perspectives.
