Welcome to the 26th APSAC Colloquium!

Our vision is for a world where all maltreated or at-risk children and their families have access to the highest level of professional commitment and service. Our mission is achieved in a number of ways, most notably through expert training and educational activities along with policy leadership, collaboration, and consultation that emphasizes theoretically sound, evidence-based principles. APSAC also advocates for the well-being of children and families, especially those threatened by violence and abuse, and for the professionals who work to address child maltreatment.

Come join us in the celebration of this vision and commitment to support and train professionals who serve children and families affected by child maltreatment and violence. Through the hard work and dedication of our members, APSAC has grown into a multidisciplinary group of professionals, who also are our friends, family, colleagues and the leading experts on the prevention and intervention of child abuse in the United States.

Please join us in Salt Lake City, June 18-22, 2019.
